in eye area wrinkles\*

*\*Clinical Trial Data Using Blinded Methodology and Corneometer Measurements*

## Product Identification, Insights, & Safety Assurance:

NaturLOCK™ (ID: AG002) by Terry Laboratories is made through a proprietary reverse osmosis process for purity, stability, and safety assurance and is specially designed for human use. This independent, internationally recognized clinical study by a third party included 23 female participants aged 35-74. No adverse events were reported throughout the study's duration.

## Proven Anti-Aging Excellence, the Way Nature Intended

In the controlled environment of the study, NaturLOCK™ has demonstrably offered a significant leap in combating aging signs when used twice daily on the face, specifically around the delicate eye area. The natural properties of NaturLOCK™ by Terry Laboratories are the scientifically verified gateway ingredient to unlock rejuvenated, hydrated skin in just two weeks.

## **The Science Behind the Science: NaturLOCK System™**

Terry Laboratories' proprietary NaturLOCK System™ uses advanced reverse osmosis to ensure maximum purity and potency, maintaining polysaccharide content nearly identical to fresh aloe vera leaves. Processed within 2 hours of harvest for peak freshness and nutrient retention, our products are ideal for cosmetic and nutraceutical applications.

Quality Aloe Vera Extracts & Concentrates

## About Terry Laboratories

Since 1973, Terry Laboratories has been a global leader in producing the highest-quality and purest aloe vera extracts and concentrates in over 60 countries.
